The Kearney Companies, Inc. is committed to providing superior service by combining the knowledge and experience of its professional staff to seamlessly coordinate the flow of goods and information for our customer's unique supply chains.

KCO has built strong working partnerships with our clients through the implementation of customized and innovative solutions designed to exceed our clients' unique requirements, allowing them to meet their strategic goals and gain the competitive advantage they seek. KCO is headquartered in New Orleans, LA and currently employs a staff of 45 professionals in including a number of licensed Customs Brokers.

#### **Harbor and Rail Drayage**

KCO utilizes owner-operator equipment to support drayage from all New Orleans and surrounding area SS Line Terminals. KCO draymen have interchange agreements with all the ocean carriers offering store door service. All product flow is managed by KCO ensuring that the customer's needs are always prioritized throughout the often critical drayage process.

#### **Transloading and Cross-docking**

KCO has extensive operational experience managing high volume cross-dock programs. These programs generate significant value for our customers, reducing static inventory levels and improving supply-chain velocity. Transload services are for both container to truck and rail or visa versa for export cargoes. With access to six main line railroads, Kearney companies is also able to coordinate rail bookings with NS, UP, BNSF, KCS, CN, and CSX railroads for inland haulage.

#### **DC By-Pass Program**

KCO manages a number of customized programs, which allow the shipment of pre-sold imported products directly to the final customer. KCO personnel are experienced in the US Retail industry and manage each individual customer purchase order to ensure customer ship-window and routing guide compliance. These programs allow product to by-pass the customer's traditional warehouse distribution network, freeing up DC management and facility capacity.
